SAFE GUN HANDLING

EN

DESCRIPTION

OPERATION

MAINTENANCE

SAFETY INSTRUCTIONS

You should be fully familiar with the proper and safe handling of your gun. The basic principles of gun safety require you to always apply the following rules when handling the firearm.

- Always treat a gun as if it was loaded.
- Always put the safety of a gun to "safe" when loading it so that there can be no unintentional discharge.
- Keep your finger away from the trigger. It should be straight and should rest on the trigger guard.
- Only use the kind of projectiles suitable for your gun.
- Always keep the muzzle pointed in a safe direction.
- This gun may only be discharged in your own house, on authorized shooting ranges and inside enclosed private property. It is to be made sure that no projectile can leave the enclosed property.
- Keep the danger area of the projectile in mind.
- Never transport a loaded gun. Only load your gun when you intend to fire it.
- Never aim your airgun at persons or animals. Avoid ricochets. Never fire at smooth, hard surfaces or water.
- Before you discharge your gun, make sure that target and surrounding area are safe.
- Always make sure that the gun is not loaded when you transport it or take it from another person.
- Make sure that you always have full control over the muzzle of your gun, even if you stumble or fall down.
- Safety shooting glasses should always be worn when firing the gun.
- Always store your gun in a safe place and in unloaded condition. Unauthorized persons (persons not familiar with the use of guns, children) must not have access to it. Ammunition is to be kept in a separate place.
- This gun and its instruction manual may only be passed on to persons
 - who are fully familiar with its use and
 - who have reached the legally stipulated minimum age in the respective country.
- Modifications or repairs of guns are only to be effected by authorized agencies or by a skilled gunsmith.
- Never leave a loaded gun unattended.
- Only unloaded guns are to be handed over to another person.

REPAIR

A gun that does not work properly is dangerous. Do not attempt to repair this pistol if it needs service. Incorrect assembly could lead to dangerous malfunctions.

Caution: Repairs should only be completed by UMAREX authorized centres.

SAFETY INSTRUCTIONS | WARRANTY

CAUTION

For your own safety and the safety of others, carefully read these instructions before using this gun. Buyers and owners must observe all rules concerning the use and ownership of air guns. Modifying this gun may result in a change of its classification under gun law and is therefore prohibited. In such cases the manufacturer's warranty will immediately become void.

WARNING

Do not brandish or display this airgun in public - it may confuse people and may be a crime. Police and others may think this airgun is a firearm. Do not change the coloration and markings to make it look more like a firearm. That is dangerous and may be a crime.

WARRANTY

During the legal warranty period, which begins on the date of purchase, UMAREX will repair or replace your gun at no charge provided the defect was not caused by you. Return your gun to an authorized dealer along with a description of the problem and proof of purchase.

The air guns manufactured by UMAREX GmbH & Co. KG are made according to the regulations of the PTB (Physikalisch-Technische Bundesanstalt), German federal law, the CIP regulations and the technical know-how of UMAREX GmbH & Co. KG.

We will not assume any liability whatsoever if this product is exported to territories outside of Germany and as a consequence does not comply with domestic legal requirements of these territories. It will be the sole responsibility of the importer to ensure compliance with local laws and regulations.

TECHNICAL DATA

Item no.	2.4981 	2.4964	2.4352
System	Air rifle		
Power Source	Piston spring		
Caliber / Ammo	4,5 mm (.177) Pellets		
Capacity	1 round (Pellet)		
Energy	7,5 J	16 J	19,9 J
Velocity	up to 175 m/s	up to 250 m/s	up to 275 m/s
Cocking system	Break barrel		
Safety	manual		
Barrel length	383 mm		
Stock	synthetic		
Dangerous area up to	460 m	777 m	900 m
Weight	3270 g		
Length	930-994 mm		

DESCRIPTION

EN

SAFETY

CAUTION

- Only handle your gun in its safe condition.
- Always make sure that the muzzle points in a safe direction.

SAFE

FIRE

STOCK

EN

COCKING AND LOADING

EN

CAUTION

- Do not leave the mainspring cocked for a prolonged period of time. This may cause accidents and will weaken the spring which again may impair the shooting performance of your gun.
- Do not dry fire the airgun (without a projectile). This might cause damage to it.

CAUTION

Use only pellets cal. 4,5 mm (.177).

WINDAGE ADJUSTMENT

SHOOTING

⚠ CAUTION

- Only handle the gun when it is in its safe condition.
- Always make sure that the muzzle points in a safe direction.
- This is a high-energy gun. Only use targets which the projectile cannot penetrate.

BARREL CLEANING

EN

⚠ CAUTION

- Do not force the rod into the barrel, as this could cause damage.
- Occasionally clean the metal parts on the outside. Use a cloth which has been slightly dampened with some gun oil.
- In regular intervals (after approx. 250 pellets have been fired) a plug soaked in gun oil (such as Walther Gun Care) is to be shot through the barrel, and the barrel hinge and the barrel lock are to be lubricated with some drops of gun oil. This will ensure a reliable and long-lasting functioning of your gun.

Cleaning pellets item no. 3.2055

Flexible cleaning cable item no. 3.2049 cal. 4,5 mm / cal. 5,5 mm
