SAFE GUN HANDLING

EN

You should be fully familiar with the proper and safe handling of your gun. The basic principles of gun safety require you to always apply the following rules when handling the firearm.

- Always treat a gun as if it was loaded.
- Always put the safety of a gun to "safe" when loading it so that there can be no unintentional discharge.
- Keep your finger away from the trigger. It should be straight and should rest on the trigger guard.
- Only use the kind of projectiles suitable for your gun.
- Always keep the muzzle pointed in a safe direction.
- This gun may only be discharged in your own house, on authorized shooting ranges and inside enclosed private property. It is to be made sure that no projectile can leave the enclosed property.
- Keep the danger area of the projectile in mind.
- Never transport a loaded gun. Only load your gun when you intend to fire it.
- Never aim your airgun at persons or animals. Avoid ricochets. Never fire at smooth, hard surfaces or water.
- Before you discharge your gun, make sure that target and surrounding area are safe.
- Always make sure that the gun is not loaded when you transport it or take it from another person.
- Make sure that you always have full control over the muzzle of your gun, even if you stumble or fall down.
- Safety shooting glasses should always be worn when firing the gun.
- Always store your gun in a safe place and in unloaded condition. Unauthorized persons (persons not familiar with the use of guns, children) must not have access to it. Ammunition is to be kept in a separate place.
- This gun and its instruction manual may only be passed on to persons
 - who are fully familiar with its use and
 - who have reached the legally stipulated minimum age in the respective country.
- Modifications or repairs of guns are only to be effected by authorized agencies or by a skilled gunsmith.
- Never leave a loaded gun unattended.
- Only unloaded guns are to be handed over to another person.

REPAIR

A gun that does not work properly is dangerous. Do not attempt to repair this pistol if it needs service. Incorrect assembly could lead to dangerous malfunctions.

Caution: Repairs should only be completed by UMAREX authorized centres.

SAFETY INSTRUCTIONS | WARRANTY

EN

CAUTION

For your own safety and the safety of others, carefully read these instructions before using this gun. Buyers and owners must observe all rules concerning the use and ownership of air guns. Modifying this gun may result in a change of its classification under guns law and is therefore prohibited. In such cases the manufacturer's warranty will immediately become void.

WARNING

Do not brandish or display this airgun in public - it may confuse people and may be a crime. Police and others may think this airgun is a firearm. Do not change the coloration and markings to make it look more like a firearm. That is dangerous and may be a crime.

WARRANTY

During the legal warranty period, which begins on the date of purchase, UMAREX will repair or replace your gun at no charge provided the defect was not caused by you. Return your gun to an authorized dealer along with a description of the problem and proof of purchase.

The air guns manufactured by UMAREX GmbH & Co. KG are made according to the regulations of the PTB (Physikalisch-Technische Bundesanstalt), German federal law, the CIP regulations and the technical know-how of UMAREX GmbH & Co. KG.

We will not assume any liability whatsoever if this product is exported to territories outside of Germany and as a consequence does not comply with domestic legal requirements of these territories. It will be the sole responsibility of the importer to ensure compliance with local laws and regulations.

TECHNICAL DATA

Item no.	5.8156 
System / Power Source	CO ₂ pistol / 12 g CO ₂ capsule
Caliber / Ammo	4,5 mm (.177) Steel BBs
Capacity	15 rounds (BBs)
Energy	< 3 J
Velocity	up to 130 m/s
Sights	Fixed front and rear
Trigger	Double Action Only (DAO)
Color	black
Safety	manual
Barrel length	93 mm
Dangerous area up to	300 m
Weight	815 g
Length	175 mm

DESCRIPTION

EN

SAFETY

EN

CAUTION

- Only handle your gun in its safe condition.
- Always make sure that the muzzle points in a safe direction.

PROBLEM SOLUTIONS

PROBLEMS
Faulty shooting direction
Gun does not shoot
Low shooting speed

POSSIBLE CAUSES								
Safety activated	CO ₂ capsule not inserted	Gas / CO ₂ capsule / Magazine empty	Dirty barrel	Extreme temperatures	Wrong ammunition	Ammunition badly loaded	Sight not properly adjusted

INSERTING AND CHANGE CO₂-CAPSULE

EN

CAUTION

- Only use 12g CO₂ capsules.
- For storage remove gas capsules.
- There may be a minor discharge of gas when you remove the gas capsules.

Make sure that your hands do not come into contact with discharged CO₂ gas. This may cause freezing of the skin. Do not expose the CO₂ cartridge to excessive heat and do not store it at temperatures exceeding 54°C. Always adhere to the warnings and safety instructions of the manufacturer on the gas cartridge in respect to handling and storage of a CO₂ gas container.

1. Press the magazine catch.
2. Remove the magazine.

3. Turn the piercing screw downwards.

4. Press the grip panel release.
5. This frees the loading port for the CO₂ cartridge.

6. Insert the CO₂ cartridge as shown.

7. Push grip panels back.
8. Turn the piercing screw in; CO₂ cartridge is pierced.

9. Insert the magazine.

LOADING THE MAGAZINE

EN

CAUTION

Only use steel BBs cal. 4,5 mm (.177).

NOTE:

Only use flawless BBs: Never use the following BBs: **1** with edges, **2** both halves not aligned, **3** used, soiled, **4** deformed. **Warranty expires if non recommended BB are used.** It's recommended to use precision BB from UMAREX/Walther.

Magazine-protecting cap

1. Press the magazine catch.
2. Remove the magazine.

3. Pull down the follower and push it to the side to engage it.
4. Load BBs. Release the follower and push it up slowly.

5. Insert the magazine.

SIGHTS

EN

SHOOTING

1. Put safety on "fire"

2. Pull trigger

CAUTION

When all the BBs have been fired, the slide will stay in the rear position. Press the slide stop lever to let the slide jump forward.

BARREL CLEANING

EN

CAUTION

- Unload the gun before cleaning the gun.
- Do not force the rod into the barrel, as this could cause damage.
- Occasionally clean the metal parts on the outside. Use a cloth which has been slightly dampened with some gun oil.
- Never drip silicone oil directly into the barrel.

Put the safety on "safe". Prepare a thin rod with a length of approx. 30 cm. Attach a piece of cotton fabric to its end and clean the barrel with some silicone oil.

MAINTENANCE (FOR CO₂ GUN ONLY)

Clean your gun at regular intervals (250 shots) using a maintenance capsule. We recommend the use of the WALTHER maintenance capsule 4.1683.

How to use the maintenance capsule:

Remove all BBs from the gun, insert the maintenance capsule and pierce it. Turn the gun upside-down so that the trigger is on top. Then point the gun in a safe direction and fire until the capsule is empty.
